TO INVESTORS.

I am a specialist. My specialty is to find investments for everybody who want their money to earn them more than savings bank interest and all that is possible consistent with safety. The very rich are satisfied with a small rate of interest, because their principal is so large that it earns them a big income in any event. The great middle class, the wage earners, salaried men and women and those of moderate means, want to increase their income and many apply to me, and I am doing it for them. How? By putting them into safe dividend-paying mining and smelting companies and industrials, or buying shares in companies that are nearing a dividend-paying stage. I have exceptional facilities for doing it, because I make a business of it.

This class of investments pay handsomely, are as safe as a bank, and nothing equals them.

There are several very choice investments paying 12 per cent in quarterly dividends of 3 per cent that I recommend, that are especially desirable for savings bank depositors and estates. Send for my list.

Labor-Saving Machinery plays an important part in any manufacturing plant. Without these the cost of production can be kept down only by employing cheap help—which means inferior workmanship—or by using the cheapest grades of stock. All of this applies to printing and binding as much as to any other business. *Stop and consider.* THE TUTTLE COMPANY of Rutland, Vt., have the largest and best equipped office in the State. They invite you to call and inspect their labor-savers.

AUTOMATIC AND POSITIVE FEED.

Easily Operated, - Simple in Construction,
Durable and Strong.

A reliable check punch at a low price has long been desired. The S. & P. machine meets all requirements; will last indefinitely, doing good work. That it is important to own a check protector has been proven by repeated decisions of the higher courts, holding that the loss from raised checks must be paid by the maker of the check and not by the bank on which it is drawn. All authorities hold that in the absence of any suspicious conditions the maker is liable.

The PEN-CARBON (Patent)
Bill Books and Letter Books.

An office necessity, when once used.

The Pen-Carbon Letter Book is the greatest improvement, time saver and convenience ever made in this line, as it does away with the old cumbersome and unsightly letter press, water, brushes, damp tray, etc., and saves, more than all, the time and annoyance connected with the use of the press system.

The Pen-Carbon Bill Copying Book is a perfect device for copying bills and short business documents while writing. Our Pen-Carbon duplicates perfectly every mark made by any ordinary pen on any paper or bill head.

Ordinary Carbon Paper is a well-known article, but Pen-Carbon is made of an entirely different material, there being no carbon used in its manufacture, and we will guarantee the copy to last as long as *any* ink and *longer* than *most* inks. Throw away your letter-press, cloths, water, etc. Their use always blurs or blots the bill. Bills copied in our Pen-Carbon Bill Book show absolutely no sign of copying.
